## What our patients have to say about us:

My wife and I take our health and nutrition seriously. It's

important to us when we need help with our bodies we get the best. We have been seeing Dr Bromley since he started his practice. He is very friendly and professional and provides top notch care for his patients. We are very happy with the services that he provides in his clinic.

**Tony S. and Michelle R.**

Dana Bromley has been our family's chiropractor for over 10 years and we all highly respect his abilities in the chiropractic field. Dana is not only knowledgeable but has such a pleasant, easy going manner about him that he is able to relax the patient prior to any adjustment being done.

Dana spends time communicating with you on all areas of your wellbeing. I called his office a few months ago regarding an injury and Dana didn't hesitate to personally speak with me on the phone In order to provide me with the best solution possible. He is truly interested in getting to know his patients to order to administer appropriate treatments.

Rosemary Heights Clinic has our full recommendation.

We have been taking treatment from Dr. Bromley for over 9 years during which he has consistently improved our quality of life by alleviating specific back problems (often caused by our own carelessness) and by providing excellent maintenance to ensure that we can go far longer without pain than before. He has always shown an interest in our overall health and he has made suggestions to improve it. He also provides a cheerful and pleasant treatment environment. Thanks, Dana!

Rosemary Heights Clinic is the best in every way. They have accommodated my busy schedule and have been there for me for a number of emergencies. I don't think I would have reached the professional level in my career if not for Rosemary Heights Clinic. I refer all of my friends to them. Their professional level there is outstanding, yet at the same time, the warmth that is extended to every patient is incredible. Thank you for all the care that you have given me over the past 16 years.

I just wanted to take a moment to tell you how much better I feel since I started seeing Dr. Bromley. After seeing many doctors over many years with various methods I found Dr. Bromley has been the best for me. The last couple of years I

have been through many changes which include working and then retirement as well as a bout with cancer. Through it all, Dr. Bromley has been a blessing. He is patient and kind and thoughtful toward his patients. Seeing a chiropractor was never on my list a few years back but finding Dr. Bromley has made seeing one a joy knowing how much better I feel everyday. Thanks Dr. Bromley.
